

# Disability policy scan (2<sup>nd</sup> ed.)

On behalf of the Canadian Disability Policy Alliance, I offer the 2<sup>nd</sup> edition of the **REVIEW OF DISABILITY POLICY IN CANADA**. We invite you to download it, copy it, distribute it, use and share it as you wish. It is offered as a resource to disability scholars and spokespersons, with our compliments and our best wishes ([click here](#)). The first edition of the policy scan was one of the earliest research activities of the Canadian Disability Policy Alliance. It was disseminated through the website of the CDPA, and has been one of the most frequently consulted resources on that site.

Several noteworthy changes have occurred in a number of jurisdictions since the first edition was completed. We hope that this document will provide a catalyst for researchers, advocates and analysts to compare changes over the five-year period; compare policy between jurisdictions; examine the impact of policy changes; and, further explore specific policy areas and sectors.

*A vision of Canada where people with disabilities enjoy full participation and citizenship,  
supported by a coherent framework of legislation, regulation and programs.*
